PROFILE SUMMARY

Motivated and detail-oriented B.Tech Artificial Intelligence & Data Science student with hands-on experience in Web Development, Data Science, Software Testing, and Cloud Computing. Skilled in Java, SQL, HTML, CSS, and problem-solving with practical exposure through internships, academic projects, and certifications. Passionate about learning emerging technologies and building innovative solutions that create real-world impact. Seeking opportunities to apply technical knowledge, analytical thinking, and collaborative skills in a dynamic technology environment.

TECHNICAL SKILLS

Programming Languages

- Java
- SQL

Web Technologies

- HTML
- CSS
- JavaScript (Basics)

Testing

- Manual Testing
- Selenium (Basics)
- Test Case Design & Execution

PROJECTS

Ola Bike Ride Demand Forecasting

- Developed a machine learning model to predict hourly Ola bike ride demand using historical ride and weather data.
- Performed data preprocessing, feature engineering, and model evaluation to improve forecasting accuracy.
- Applied predictive analytics techniques for demand estimation.

Technologies: Python, Pandas, NumPy, Scikit-Learn, Machine Learning

Healthcare Application Testing (Medisafe)

- Designed and executed structured test cases for healthcare application modules.
- Performed Functional, Regression, and Usability Testing to ensure software quality.
- Identified defects and validated application workflows.

Technologies: Manual Testing, Selenium Basics, Test Case Design

AI-Based Stock Market Prediction System

- Developing an intelligent prediction system that analyzes historical stock market data and trends.
- Utilized machine learning and deep learning techniques to forecast stock price movements.
- Focused on improving prediction accuracy and decision-making support.

Technologies: Python, LSTM, Machine Learning, Deep Learning

INTERNSHIPS

Web Development Intern

CodeBind Technologies, Chennai

Aug 2024 – Sep 2024

- Developed responsive web pages using HTML and CSS.
 - Worked on user interface design and web application layouts.
 - Gained practical experience in front-end development and project workflows.
-

Data Science Intern

Corizo

Sep 2024 – Oct 2024

- Worked on data collection, cleaning, and analysis activities.
 - Assisted in extracting insights from datasets using analytical techniques.
 - Improved understanding of data-driven decision-making processes.
-

CERTIFICATIONS

- AWS Academy Cloud Foundations
 - Data Science Internship Certification – Corizo
 - Java Programming Certification -Qspider
 - Web Development Internship Certification – CodeBind Technologies
-

EDUCATION

- **Sri Ram Matric Higher sec School**
2021-2022
 - **B.Tech – Artificial Intelligence & Data Science**
Panimalar Engineering College, Chennai
2022 – 2026
CGPA: 8.9
-
